MEASURE NOW, NOT LATER

### Choose the Location

- With a level floor (<1" slope)
- That allows the installation of an exhaust system
- Within 3' of hot and cold water lines

### Take the Measurements

- Measure the location for your washer & dryer

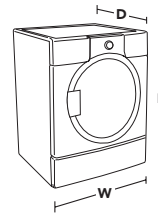

### Washer:

Width \_\_\_\_\_in.  
(Add 1" on each side for air circulation)

Depth \_\_\_\_\_in.  
(Add 6" for door clearance & hookups)

Height \_\_\_\_\_in.  
(Add 20" at top for top-load)

### Dryer:

Width \_\_\_\_\_in.  
(Add 1" on each side for air circulation)

Depth \_\_\_\_\_in.  
(Add 6" for door clearance & dryer vent)

Height \_\_\_\_\_in.

**Note:** Be sure to measure for additional space if you plan to add pedestals or towers to your laundry pair.

- Measure the clearance of the doorways leading into your house

### Call the Professionals

- Designate a grounded outlet (no extension cord or adaptor)
- Designate a separate 30-amp circuit
- Contact a heating or gas professional (if you plan to purchase a gas dryer)
  - CST International approved gas line
  - A shut-off valve
- Determine a removal plan for your old laundry pair
